No need to be nervous.

I bought him from a circus troupe while travelling in Thailand so he obeys orders. He hasn't caused any problems yet.

...yet?

I heard you're quite a famous vet around here.

Me? No way!

He started acting strange recently.

He lies down all day and when he does move, all he does is pace the window sill...

Sometimes he bumps into furniture or the wall. I would like you to find out why.

Ah... I'm sorry but I...

I think you've found the wrong person. If you want someone to treat your tiger, a vet from the zoo is probably better than a small clinic vet...

I already have. All they did was spout nonsense about regulations and taking him into the zoo

So nothing along the lines of anesthetics... I couldn't let them do that to my tiger, could I?

So I kicked them out.

Well, I'm pretty sure it's not legal to...

GYYYT

Gah!

I... have a question. Of all the animals why did you...

...choose a tiger?

...

Every man has fantasized about having a wild beast as a pet.

I've simply fulfilled it.

As a child... I was so moved by a movie that I decided I'd raise a tiger.

"Lion King"

From the beginning to the closing credits! The bravery and the tenacious charisma!

I knew from that moment that no animal was fit for me other than a tiger.

...

That's a lie.

I bet you all want to tell him it's a lion too!

Don't bother with excessive about whether it's tigar or not and examine him
If he returns to his old self, I'll make sure you're safely rewarded!
.....

If you go there, often animals show signs of erratic behavior.
People often mistake such behavior to be acts of talent and such but...
...shot small is, they're grieving enemie...

Confinement? What are you talking about?
I didn't think you've seen my entire place... This place isn't as small as you might imagine!
Well... if he was as small as a cat or a dog, he could leap and play all he wanted but to a tiger, this place...

Amazing wild animals, the higher you are on the food chain, the more space you need!
No matter how big this house is, it's nothing more than a cage to him...

Of course cats and dogs can also suffer from depression but
Zoochosis it a lot more serious than your everyday pet depression.

No. The zoo isn't any different. Why else would it be called Zoochosis?
If you leave it alone, the symptoms will only get worse. Zoos often use interventions to lessen the symptoms but...
.....

And... since it's been less than a year since you've brought him back, you probably haven't had him during breeding season. When that time comes, he'll suffer from extreme amounts of stress.
Of course, you could always neuter him like other pets, but that's also just...

DO YOU WANT TO BE RIPPED TO SHREDS, HUMAN?
GRRRRRRR

Gasp!
Ok...
Of course we can't do that...
?
GRrr
Huh?
He's suffering mentally because of his confinement. Medication is only temporary...
Then what's the solution? Other than sending him back...

First of all, he needs a large living space. Similar to where he came from, if possible
...Like a field for cows and horses?
At the very least!

A field you say.
...Phone
Mr. Jeong. Find out if there's land that's enough for a tiger. As close and as large as possible.
What?

Oh... Mhmm... A mountain?
Doc. How's a mountain?
But... rather than making something here, sending him back to...
GRrr

A mountain... would be much better than a field!
Right.
...

Now... I've done as you've told me to so I'll go find you many weak until I see results.
...Uh?
Didn't you just see? I brought an entire mountain to ating your mind...
So if things don't improve, shouldn't you be the one to take responsibility?

...Uh?

I look forward to our relationship, Doc.

...Uh?

.....
...Uh?

...
...Adsense?

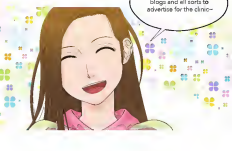
Huh? Doctor

Oh, are you just getting back from somewhere?

Uh? All... what should I call it...
Personal web for treatment?

Wow~! At such an early hour I guess it was a good thing advertising for the clinic.
Ad? Advertise?

Yes! I used SNS, blogs and all sorts to advertise for the clinic~



I felt so bad for making you close the clinic for an entire week. I felt like just the bio-prevent fees weren't enough.
...I
The...reason...
I've been swarmed with a ridiculously large number of clients...
And had to treat a tiger at the risk of my life...

...was **you**?!
